

4. The pop-up dispensing system of Claim 17 wherein the non-cellulosic organic water soluble polymer is selected from the group consisting of synthetic polymers.

5. The pop-up dispensing system of Claim 17 wherein the non-cellulosic organic water soluble polymer is in an effective amount of less than about 0.11 percent by weight.

Please cancel Claims 8-9 without prejudice.

Please amend Claims 10-13 as indicated.

10. The pop-up dispensing system of Claim 17 further comprising an effective amount of a preservative.

11. The pop-up dispensing system of Claim 17 further comprising an effective amount of a fragrance and an effective amount of a fragrance solublizer.

12. The pop-up dispensing system of Claim 17 further comprising a kerotolytic.

13. The pop-up dispensing system of Claim 17 wherein the kerotolytic comprises allantoin.

Please cancel Claim 14 without prejudice.

Please amend Claims 15-16 as indicated.

15. The pop-up dispensing system of Claim 18 wherein the substrate is wetted with at least 1.0 gram of the lotion per gram of dry substrate weight.

Please amend Claim 17 as indicated

17. A pop-up dispensing system for reliable single dispensing of discrete pre-moistened wipes in consecutive order, the system characterized by:

- (a) a container having an interior portion and an aperture for drawing through the pre-moistened wet wipes in consecutive order;
- (b) a plurality of the pre-moistened wipes, the wipes being stacked, folded and interleaved in a substantially interfolded z-fold pattern in the interior portion of the container;

wherein the pre-moistened wipes are wetted with a lotion, the lotion being an aqueous solution comprising at least about 90% by weight water, a surfactant selected from the group consisting of phosphate-quaternary amine compounds and non-ionic surfactants, and effective amounts of a second ingredient selected from the group consisting of non-cellulosic organic water soluble polymers and alkoxylated alcohols and wherein each of the pre-moistened wipes has a leading edge panel having a length of from about 2 cm to about 7 cm, a central panel having a length of from about 3 cm to about 12 cm, and a trailing edge panel having a length of from about 2 cm to about 7 cm.

Please cancel Claim 20 without prejudice.
